

MIXIT

NEW PRODUCT **2023**

Professional mixer for tile adhesives, cement, paint, epoxy resins.

Universal mixer

MIXIT After years in the range with only our famous MIXER 50S, Battipav has decided to develop an innovative version equipped with safety stop system handy structure anchored to the bucket by 3 hinges, whisk designed to mix the most common cementitious materials, such as tile adhesive, screeds, premixed plasters, grouts for joints, and much more! MIXIT is also equipped with a trolley, for transporting the full bucket.

MIXING

Material should be poured directly on the steel cover for the correct mixing.

SPEEDS

Two speeds mechanical gear lever

CARRIAGE

Practical carriage allows to transport easily the full bucket of mixed material on the working site.

SAFETY

A safety switch prevents the motor to start when the mixing head is not in the right position.

MIXIT

MOTOR

Powerful, it's provided with overheat protection with manual reset. It intervenes in the event of the agitator jamming.

BUCKET

Homogeneous paste and without lumps. It mixes up to 50 kgs of material independently

Universal mixer

- › PET Bucket - 65 Lt.
- › Mixing capacity 50 Kg.
- › Whip

SAFETY:

An automatic safety switch prevents the motor to start when the mixing head is completely raised up.
