APPLICAZIONI: Murature miste, mattoni, laterizi, cemento, cemento armato.
APPLICATIONS: Masonry, bricks, concrete, reinforced concrete.

Foretto diamantato ad alte prestazioni che garantisce un'ottima velocità di taglio e una lunga durata sui materiali edili. Queste sue caratteristiche rendono il CF 280 in assoluto il foretto ad umido del nostro assortimento più venduto, dato che può essere utilizzato su tutti i tipi di cemento con diversi livelli di abrasività, durezza e armatura metallica.

High performance diamond core bit that guarantees excellent cutting speed and long life on building materials. These characteristics make the CF 280 the absolute best-selling diamond core bit in our range, as it can be used on all types of concrete with different levels of abrasiveness, hardness and metal reinforcement.
