

Terminator 240

4HP single-phase
2,5HP single-phase

Single-disc floor grinder

ESTIMATED PRODUCTION

Concrete Grinding 1 step	20-25m ² /h
Terrazzo Polishing 1 step	45-75m ² /h
Resin Removing 1 step	15-25m ² /h
Varnish Removing 1 step	10-20m ² /h

*Production numbers may vary according to surface conditions, diamonds used, equipment operator, etc.

Bimack has designed a full range of concrete grinders and diamond products, which give the opportunity to treat any floor and specific application.

The **Terminator 240** is a single-disc concrete grinder especially designed for small to medium horizontal surface preparation applications which allow to grind approximately 200-250 sq. ft. per hour. The Terminator 240 is very easy and comfortable to use with low vibrations. The Terminator 240 single disc grinder is dust free when connected to the appropriate BIMACK dust collection system. Perfect Machine for surface preparation of small to medium floors, surface levelling, concrete preparation before coating, removal of coating defects or adhesives, Removing mastics, thin-sets, paint build-ups, resins and more, Repairing damaged concrete slabs, Smoothing rough surfaces, rain marks or trowel marks.

Featuring:

- Solid Steel body • Powerful Motor High Efficiency • Dust free, when connected to an appropriate Bimack dust collector. • Vacuum port and water tank available • Can grind right up to the edge thanks the special design • Single-head grinding machine Ø 240 mm with Fast Connection system • Adjustable grinding depth. • User friendly and comfortable to use with low vibrations • Compact and light: easy to transport and carry upstairs.
