

LEADERS

FOR BUILDING EQUIPMENT

SINCE 1985

Built on experience.

Construction equipment & surveying instruments

Equipment supply.
Maintenance. Spare parts. Calibration.

OUR COMPANY

Experience built since 1985

1985

The start of
our company

Leaders for Building Equipment is an Egyptian company specialising in equipment for contractors, construction projects and concrete works.

As agents for international manufacturers, we import and supply equipment backed by genuine spare parts, maintenance and technical support.

OUR RANGE

Construction at our core.

Our equipment range covers mixing, concrete vibration and finishing, compaction, lifting, rebar processing, cutting, drilling and surface preparation. For more than a decade, it has also included surveying and environmental measuring instruments.

HOW WE SUPPORT YOU

01

Equipment supply

A broad range of equipment and product guidance for the requirements of each job.

02

Local after-sales support

Maintenance, repairs and genuine spare parts for the construction equipment we sell.

03

Instrument care

Maintenance and calibration for surveying instruments to support reliable measurement.

Serving a wide range of sectors

Construction and infrastructure, utilities, industry and educational institutions.

CONSTRUCTION EQUIPMENT

Mix. Place. Finish.

Equipment for concrete and mortar preparation, consolidation and finishing.

01 Mixing equipment

UNIMEC / POLIERI / BATTIPAV

Concrete & mortar mixers

Pan mixers

Mortar & epoxy mixers

Handheld mixers

02 Concrete vibration

ENAR / LAE VIBRATION / VIBRA SYSTEM

Vibrator drive units

Vibrating pokers

External vibrators

Vibrating screeds

03 Concrete finishing

BARIKELL

Walk-behind power trowels

Ride-on power trowels

Hand floats & finishing tools

CONSTRUCTION EQUIPMENT

Compact. Lift. Shape.

Equipment for site preparation, material handling and reinforcement work.

01 Compaction equipment

BATMATIC / KASA

Forward plate compactors

Reversible plate compactors

Tamping rammers

Rollers

02 Lifting & material handling

BOSCARO / E.C.E. ELEVATORI / NIDEC

Column concrete buckets

Conical concrete buckets

Self-dumping bins

Electric hoists

03 Rebar cutting & bending

ICARO / MARCITAL

ICARO rebar cutters

ICARO rebar benders

MARCITAL rebar cutters

MARCITAL rebar benders

CONSTRUCTION EQUIPMENT

Precision for every cut.

Sawing, chasing and core drilling equipment for construction applications.

Bridge & tile saws

Equipment for tile and stone cutting.

Block saws

Masonry and block cutting machines.

Floor saws

Machines for cutting floor surfaces.

Rig-mounted core drills

Core drilling with a support stand.

Handheld core drills

Portable core drilling equipment.

Wall chasers

Machines for cutting service channels.

EQUIPMENT & TOOL SELECTION

Tell us the material, cutting depth or core diameter you need.

BATTIPAV / POLIERI / NUOVA MONDIAL MEC / BAIER

CONSTRUCTION EQUIPMENT

Prepare the surface.

Floor preparation machines, handheld tools and diamond consumables.

01 Floor preparation

HYPER GRINDER / TRELAWNY

Floor grinders & polishers

Floor scarifiers

Dust extractors

02 Handheld surface tools

BAIER / TRELAWNY

Handheld concrete grinders

Concrete planers

Handheld scabblers

03 Diamond tools & consumables

CUTS DIAMANT / WORKDIAMOND / HYPER GRINDER

Diamond cutting blades

Diamond core bits

Diamond grinding tools

MEASUREMENT EQUIPMENT

Measure with confidence.

Surveying, laser and environmental instruments for contractors and engineering teams.

Automatic levels

Total stations

Line laser levels

Rotary lasers

Laser distance meters

Measuring wheels

Digital levels

Air velocity & temperature

Gas leak detectors

SURVEYING INSTRUMENT SUPPORT

Maintenance & calibration

OUR OFFER

Brands we supply

International equipment brands across construction and measurement.

AFTER-SALES SUPPORT

Equipment maintenance

Maintenance, repairs and technical support for the construction equipment we sell.

Genuine spare parts

Parts supply and help identifying the components required for servicing and repairs.

Surveying instrument care

Maintenance and calibration to support reliable measurements and instrument performance.

Contact us for current models, specifications and availability.

LEADERS

FOR BUILDING EQUIPMENT

LET'S TALK ABOUT YOUR NEXT REQUIREMENT

Equipment. Parts. Support.

Tell us what you need, the application and any model details. Our team can help you identify the next step.
